THE CONNECTION POSSIBILITY
BETWEEN SELF-PROPELLED
TRAILERS

SYNCBOX

Powered by **FAYMONVILLE GROUP KE**

The SyncBox by Cometto: the alternative

Allows you to connect self-propelled **modular trailers type Cometto MSPE 40T, 48T, EVO2 60T and/or EVO3 70T with self-propelled vehicles from competitors!**

With the SyncBox as an electronic intermediate point, the vehicles can be used together. Whether coupled or in an open combination: the combination will be controlled **with one radio remote control!**
